
Basis® XC Frequently Asked Questions

WHAT

What is Basis XC?

Basis XC is a biocatalyst for granular fertilisers distributed by Loveland Agri Products through Nutrien Ag Solutions.. Basis XC helps growers enhance the performance of their fertilisers in the soil system by increasing nutrient availability and uptake. For an “At a Glance” look at Basis XC, please see page 5.

What are the benefits of incorporating Basis XC into my existing granular fertiliser program?

Benefits include:

- Expedited nutrient availability and uptake
- Enhanced nutrient use efficiency
- Improved first-year nutrient recovery
- Better root growth and development
- Outstanding potential ROI

Product benefits are seen over a broad range of plant types, soil types, and application methods. Growers who incorporate Basis XC into their programs generally see improved yield responses and increased fertiliser efficiency, year after year.

What are the standard programs for Basis XC?

Basis XC can be used with most granular fertiliser blends. Please see “Recommended Rates” on page 6.

How does Basis XC work?

Basis XC accelerates and increases the breakdown of treated granular fertilisers. This makes nutrients more available for plant uptake and utilisation.

Please see “How It Works” on page 3.

How do I apply Basis XC?

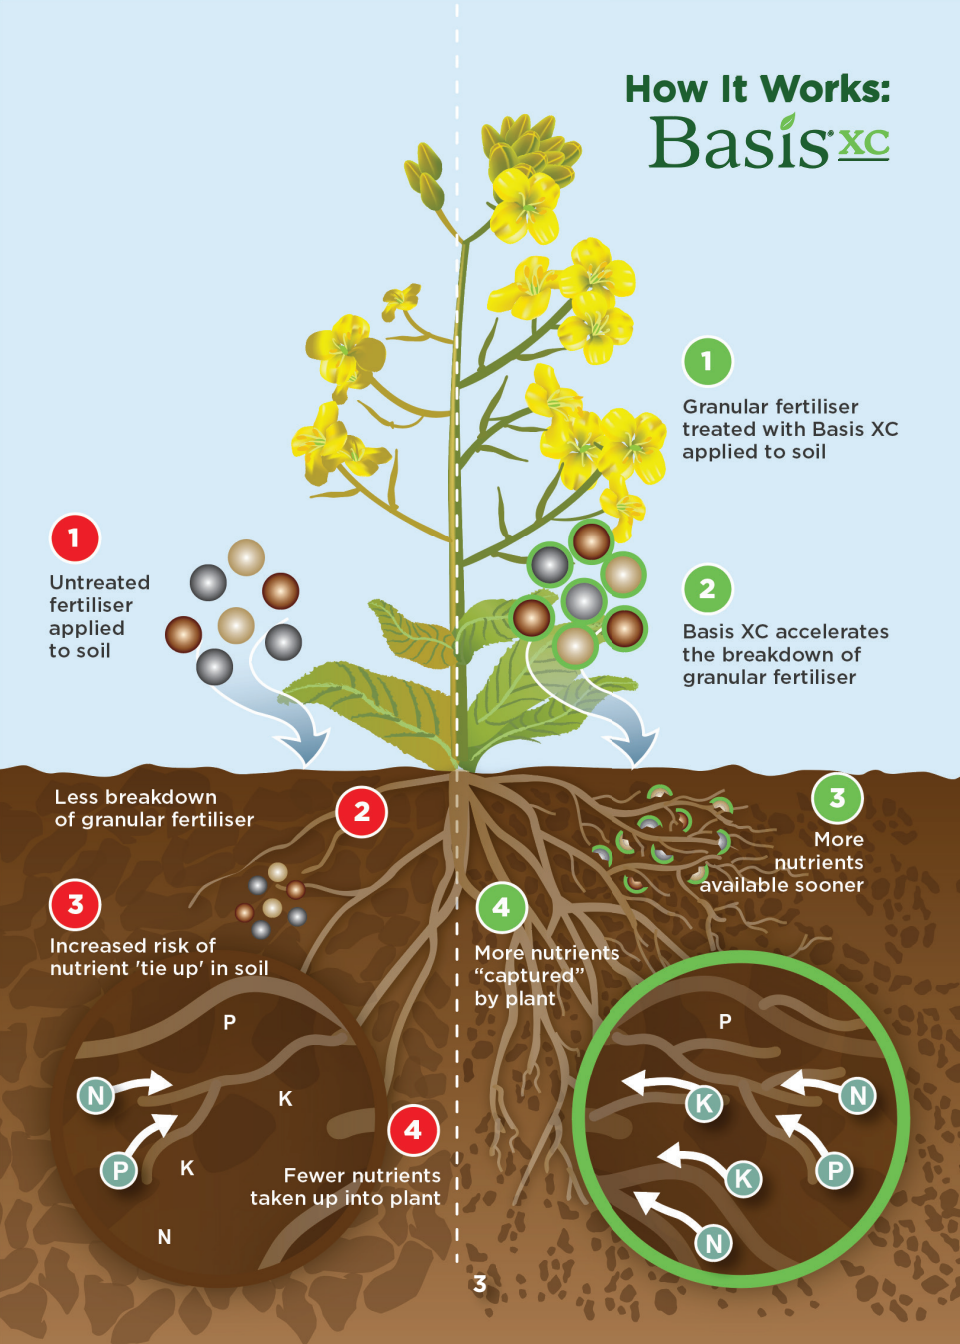
Basis XC can be easily incorporated into a grower’s current fertiliser program – without requiring product-specific equipment or a special trip across the paddock.

Basis XC can be applied to the entire blend of granular fertiliser (P & K) using a wide variety of blender types.

How long does Basis XC last after application?

Basis XC has season-long activity.

How It Works: Basis® XC



WHEN

When should I use Basis XC?

Basis XC can be incorporated into a grower's standard fertility program year-round. Please speak to your local Nutrien Ag Solutions agronomist about the ways you can incorporate Basis XC into your current growing program.

Please see below for more information on application guidelines.

Application Guidelines

Basis XC
• Apply 2 litres per tonne on P&K fertilisers, compound fertilisers, MAP, MAP blends, DAP, DAP blends, potassium blends, pell lime, sulfate of potash, ammonium sulfate & gypsum

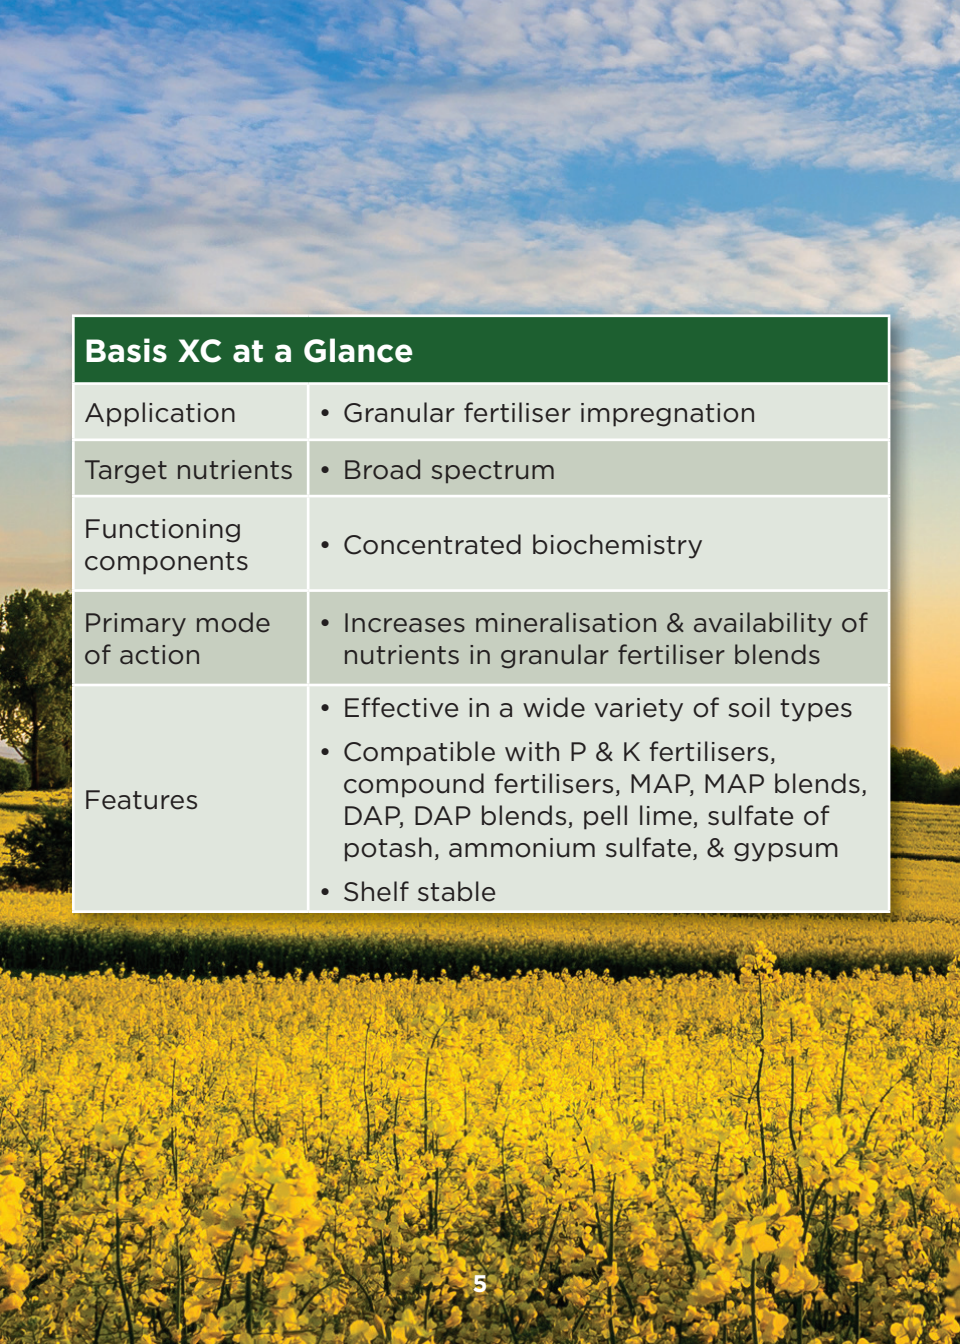
WHERE

Where can I purchase Basis XC?

Basis XC is distributed by Loveland Agri Productsthrough Nutrien Ag Solutions. Please talk to your local Nutrien Ag Solutions branch if you are interested in purchasing this biocatalyst technology.

Where can I learn more about Basis XC?

Additional information on Loveland Agri Products' complete line of high-performance products, including Basis XC, can be found by visiting lovelandagriproducts.com.au or by speaking to your local Nutrien Ag Solutions branch.



Basis XC at a Glance	
Application	• Granular fertiliser impregnation
Target nutrients	• Broad spectrum
Functioning components	• Concentrated biochemistry
Primary mode of action	• Increases mineralisation & availability of nutrients in granular fertiliser blends
Features	• Effective in a wide variety of soil types • Compatible with P & K fertilisers, compound fertilisers, MAP, MAP blends, DAP, DAP blends, pell lime, sulfate of potash, ammonium sulfate, & gypsum • Shelf stable

Basis® XC

Recommended Rate for Basis XC	
Granular fertilisers	2 litres per tonne
