## Using Loveland Agri Products

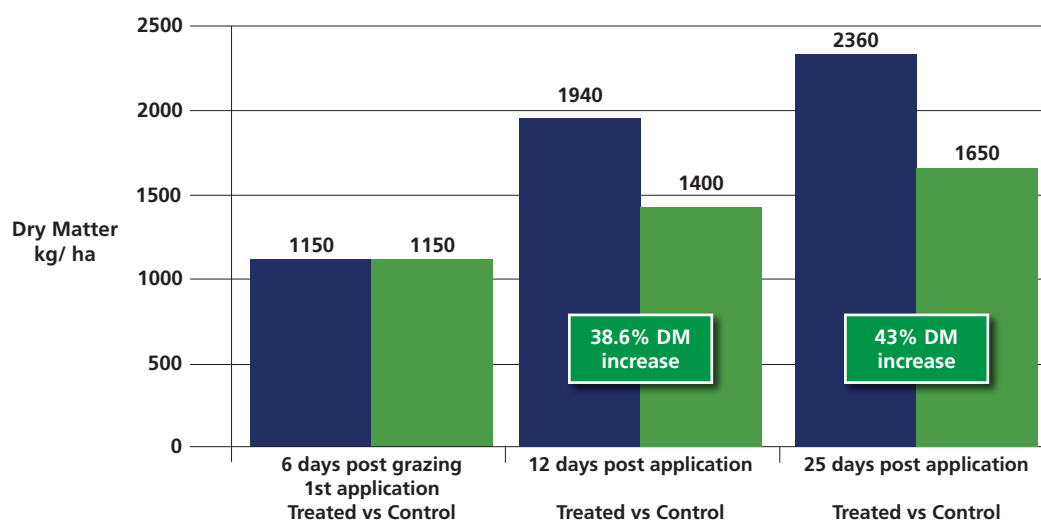

## Winter Pastures Program

Winter Pasture Programs with liquid nutritionals	Product	Rate	Unit/ ha
<b>For Annual Crops</b>	Li700	0.3	% spray solution
<b>"The Box &amp; Dice"</b> (if potassium is required)	Gibberellic Acid	80	mL
	Awaken	1	L
	LoKomotive	2.5	L
	Maximum N-Pact	5	L
<b>For Annual Crops</b>	Li700	0.3	% spray solution
<b>(If potassium is adequate)</b>	Gibberellic Acid	80	mL
	Awaken	2	L
	Maximum N-Pact	10	L
	<b>For Established Permanent Pastures</b>	Li700	0.3
<b>"The Box &amp; Dice"</b> (if potassium is required)	Gibberellic Acid	40	mL
	Awaken	1	L
	LoKomotive	2.5	L
	Maximum N-Pact	5	L

Products can be mixed with most herbicides and pesticides for a one-pass solution over the paddock. However, consult your Landmark Agronomist for advice on specific compatibilities prior to tank mixing.

Leongatha, VIC. Maximum N-Pact® + Awaken® + Gibberellic Acid

### Awaken

Awaken is a liquid formulation containing zinc ammonium acetate, nitrogen, potassium and an extensive micronutrient package designed to deliver essential nutrients, with fast uptake and utilisation by your pasture or cropping system.

### LoKomotive

LoKomotive is a liquid formulation containing potassium acetate, a form of potassium that is much more plant-available when foliar applied compared to other potassium sources, delivering fast uptake with minimal potential for phytotoxicity.

### Maximum N-Pact

Maximum N-Pact is a liquid formulation containing triazone nitrogen, a stable, safe form of slow release nitrogen with reduced volatility for improved foliar uptake with excellent crop safety.

### Soil & Tissue Testing

Soil and plant tissue testing should be carried out in advance of nutritional applications, to determine if additional fertiliser is needed. Our range of high analysis, suspension concentrates in the EzyFlow Nano range can be a source of extra nutrition where required.
