

BLACK ULTRA®

Black Ultra is very different to any other humic, humate or humic substance material in the market. An advanced manufacturing process is used to fully react materials using a specific patent regulated by heat, pressure, time and pH in a highly controlled environment. This creates a very soluble, stable, free-flowing efficacious final material that can be used straight and/or in combination with other liquid N or N-P-K fertilisers, resulting in improved plant health, yields, quality and excellent return on investment.

Features

- Specifically processed leonardite based substance
- Highly charged carbon content
- Non-phytotoxic
- Micro fine particles

Benefits

- Improves organic carbon and CEC
- Buffers negative effects of accumulated salts
- Increased water retention
- Improves overall soil biology
- Enhanced nutrient use efficiency
- Improves nutrient use efficiency when added to UAN
- Can be applied foliar and through fertigation.

Other

Application rate: See product label.

Specific Gravity: ~1.19

pH: 12.5 - 13.0

Colour: Black

Compatibility: Incompatible with calcium based fertilisers, therefore drip lines must be properly flushed before use. Fertiliser solutions with a pH of 5 or less may not be compatible. Seek professional advice prior to tank mixing with other nutritionals or pesticides.

Storage: Keep sealed in original container. Store in frost-free, dry conditions out of direct sunlight, above 5°C and below 30°C

Contains (w/v)%: 0-0-4 + 22% organic acids derived from leonardite using a patented extraction process
