NUTS AND STONE FRUIT	1 - 3L	500 - 1000L	Foliar apply at flowering, petal fall, post harvest and leaf fall, with additional applications as required.

DIRECTIONS FOR USE

SHAKE WELL OR INVERT SEVERAL TIMES before use as settling may occur after prolonged storage. Store in a closed, original container in cool, dry, well ventilated area away from direct sunlight. Triple or preferably pressure rinse container before disposal through the Drum Master program. Add rinsings to the spray tank.

MIXING: To ensure even mixing half fill the spray tank with clean water and add the required amount of product. Agitate thoroughly then add the remainder of water. Agitate thoroughly while carrying out spray operations. Reseal part-used containers immediately after use

PRECAUTIONS: Avoid application under extremes of climate, e.g. rapid drying conditions, extremely slow drying conditions, frost, rain, or when frost or rain are anticipated. Clean all equipment before and after use. It is advisable when applying for the first time or in conjunction with other products, to spray an initial small test area for observation before general application.

STORAGE AND HANDLING

KEEP OUT OF REACH OF CHILDREN

When handling or using this product, avoid skin and eye contact, ingestion or inhalation of spray mist. Always wear protective gloves, goggles, hat and protective clothing. Should the product be ingested or symptoms or signs develop after contact with the product, contact your doctor or the Poison Information Centre (13 11 26).

COMPATIBILITY: EZYFLOW NANO ZINCMAN is compatible with a wide range of agricultural products. If unsure of tank mixes always conduct a test and test spray a small area of the target crop. For the latest results of compatibility please contact the retailer. Seek professional advice prior to tank mixing with other nutritional or pesticides. NOT compatible with inoculant products. **DO NOT MIX WITH HIGH CONCENTRATES OF PHOSPHATE.**
