DIRECTIONS FOR USE

Important: The herbicide product(s) label for specific usage and restrictions have precedence over the Directions For Use referred to on this label. Before mixing and using, read all directions on the label of the companion product and on this label.

LOVELAND PRODUCTS LIBERATE® can be used with a range of herbicides including:

“Dims” (such as Clethodim, Butoxydim, Tralkoxydim, Tepraloxydim)

“Fops” (such as Clodinafop, Haloxyfop)

Atrazine, Simazine, Terbyne Xtreme* (Terbuthylazine)

Glyphosate

Sulfonylureas (Chlorsulfuron, Metsulfuron, Triasulfuron, Logran B Power, Tribenuron methyl, Sulfosulfuron)

SITUATIONS

Broadacre cropping including fallow: Use LOVELAND PRODUCTS LIBERATE® at 0.25- 0.5L/100L of Spray Volume. Use the higher rate during hot or dry conditions.

Always refer to the companion herbicide product for specific directions for use.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

WITHHOLDING PERIOD

Adhere to the withholding period(s) specified on the label of the companion product(s) used.

GENERAL INSTRUCTIONS

LOVELAND PRODUCTS LIBERATE® is a non-ionic surfactant. LOVELAND PRODUCTS LIBERATE® may be used as a surfactant to enhance the activity and effectiveness of agricultural chemicals.

MIXING

- These are general mixing instructions. Always follow mixing instructions of each ingredient in tank-mix. Ensure product compatibility. Recommendations on other product labels take precedence over mixing instructions on this label.
- Add water to the spray tank to 10cm above the level of agitation and ensure the agitation device is working vigorously. (There must be a minimum of 100L of water in the tank before any pesticide is added.)
- Add companion herbicide.
- Add LOVELAND PRODUCTS LIBERATE®. Continue filling the tank to the required volume maintaining agitation at all times.
- Only mix sufficient solution for immediate use.

STORAGE OF SPRAY SOLUTION

- Agitate for 1 hour every 8 hours, and agitate for 1 hour before spraying out where spray solution is not applied within 8 hours of mixing.
- Agitate sooner and/or for longer to maintain quality of spray solution, if recommended on partner product labels.

CLEANING SPRAY EQUIPMENT

- The presence of the product(s) makes it essential for the spray equipment to be cleaned between different applications.
- To rinse and decontaminate spray equipment, refer to the relevant product labels for instructions.

COMPATIBILITY

LOVELAND PRODUCTS LIBERATE® is compatible with the following products: Axial*, Crusader*, Atlantis*, Intervix*, Hussar*, Velocity*, Paradigm* and Precept*.

For tank mix compatibility concerns, conduct a jar test of the proposed mixture to ensure compatibility of all components. Mix components in the same ratio as the proposed tank mix.

Note: Not all species and varieties of plants have been tested. Before treating a large area, test on a small area and observe plant safety prior to the full-scale (commercial) application. Read all the compatibility instructions of the companion product before use.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemicals or used containers.

STORAGE AND DISPOSAL

KEEP OUT OF REACH OF CHILDREN. Store in the closed, original container in a cool well-ventilated area. DO NOT store for prolonged periods in direct sunlight.

This container can be recycled if it is clean, dry, free of visible residues and has the *drumMUSTER* logo visible. Triple rinse container for disposal. Dispose of rinsate by adding it to the spray tank. DO NOT dispose of undiluted chemical on site. Wash outside of the container and the cap. Store cleaned container in a sheltered place with cap removed. It will then be acceptable for recycling at any *drumMUSTER* collection point or similar container management program site. The cap should not be replaced but may be taken separately.

If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers or product.

For refillable containers: Empty contents fully into application equipment. Close all valves and return to point of supply for refill or storage.

SAFETY DIRECTIONS

Avoid contact with eyes and skin. Wash hands after use.

FIRST AID

If poisoning occurs, contact a Doctor or Poisons Information Centre. Phone Australia 131126. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a Doctor.

SAFETY DATA SHEET

Additional information is listed in the Safety Data Sheet (SDS) which is available from the supplier.

CONDITIONS OF SALE: Any provisions or rights (under the Competition and Consumer Act 2010 and/or relevant state legislation) which cannot be excluded by those statutes or by law are not intended to be excluded by these Conditions of Sale. Subject to the foregoing, all warranties, conditions, rights and remedies (expressed or implied under common law, statute, or otherwise) in relation to the sale, supply, use and/or application of this product are excluded. This product must be used strictly as directed and in accordance with all instructions appearing on the label and other reference material. To the extent allowed by statute, Loveland Products, Inc. and/or its affiliates shall not accept any liability whatsoever (including consequential loss), howsoever arising (including negligence), for any damage, injury or death connected with the sale, supply, use and/or application of this product.

Additional statements required by Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and Safe Work Australia: May be harmful in contact with skin; Avoid breathing spray mist; Wear protective gloves and eye and face protection; If in eyes rinse with water for 15 to 20 minutes, remove contact lenses if present and continue rinsing eyes; If on skin wash with plenty of water.
