WaterMaxx[®] 2

Powered By

Agricultural Soil Surfactant

Contains Non-Plant Food Ingredients

ACTIVE INGREDIENTS:

Alkoxylated polyols..... 10%

Glucoethers..... 7%

Other ingredients

Water..... 83%

WaterMaxx[®] 2 is a patented technology that enhances the infiltration and penetration of applied irrigation water and rainfall in agricultural soils.

DIRECTIONS FOR USE

Improved Emergence: To minimize crusting of seedbed and improve seedling emergence, apply 2L/ha to 9L/ha. Can be band sprayed directly over seed row separately or tank mixed with fertilizers.

Standing Water: To minimize standing water and improve soil filtration, apply 2L/ha to 9L/ha at beginning of irrigation set if possible.

Water Savings: To ensure maximum usage of applied water to any growing system, apply 2L/ha to 9L/ha per month during growing season. Apply additionally if desired for maximum effect.

Water Movement: To achieve the most efficient use of water in any growing condition, apply 2L/ha to 9L/ha per month during growing season. Lateral movement and penetration depths will be improved. Subbing of beds and furrows will be improved as well.

Injection Through Irrigation Systems: Inject at 2L/ha to 9L/ha through any type of irrigation system (except earthen ditches).

Conventional Sprayers: Apply at 2L/ha to 9L/ha. For enhanced performance irrigation or rainfall should follow application.

Transplanting: Add 0.25 L to 1 L/1000 litres of transplant water.

Fallow Bed Treatment: Apply 2L/ha to 9L/ha to fallow beds in advance of rainfall events to increase water infiltration and to reduce water run-off.

GENERAL INFORMATION: WaterMaxx® 2 is a patented technology that enhances the infiltration and penetration of applied irrigation water and rainfall in agricultural soils. WaterMaxx 2 will enhance irrigation efficiency and improve moisture levels in the soil providing a better growing environment for your plants. WaterMaxx 2 may be applied through any type of irrigation system (except earthen ditches) or by conventional spray equipment.

STORAGE AND DISPOSAL

Store in the closed, original container in a cool, well ventilated area. DO NOT store for prolonged periods in direct sunlight. This container can be recycled if it is clean, dry, free of visible residues and has the *drumMUSTER* logo visible. Triple rinse containers before disposal. Dispose of rinsate by adding it to the spray tank. DO NOT dispose of undiluted chemical on site. Wash outside of the container and the cap. Store cleaned container in a sheltered place with cap removed. It will then be acceptable for recycling at any *drumMUSTER* collection point or similar container management program site. The cap should not be replaced but may be taken separately. If not recycling, break, crush, or puncture and deliver empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers or product.

For refillable containers: Empty contents fully into application equipment. Close all valves and return to point of supply for refill or storage.

SAFETY DIRECTIONS

Precautionary Statements: Causes serious eye damage.

Personal Protective Equipment: Wear protective gloves/eye protection/face protection.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Contact a Poisons Information Centre (Phone Australia 131126) or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Contact a Poisons Information Centre (Phone Australia 131126) or doctor for treatment advice.

If swallowed: contact a Poisons Information Centre (Phone Australia 131126) or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. DO NOT induce vomiting unless told to do so by the Poisons Information Centre or doctor. DO NOT give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Contact a Poisons Information Centre (Phone Australia 131126) or doctor for further treatment advice.

SAFETY DATA SHEET

Additional information is listed in the Safety Data Sheet (SDS) which is available from the supplier.

CONDITIONS OF SALE: The use of this product is beyond the control of Landmark Operations Limited. No warranty is expressed or implied regarding the suitability or efficiency for any purpose for which it is used by the buyer. Landmark Operations Limited accepts no responsibility for any consequences resulting from the use of this product. Landmark Operations Limited will not be held liable for any loss, injury or damage arising from the sale, supply or use of this product, whether through negligence or otherwise. No responsibility will be accepted for any consequences whatsoever resulting from the use of this product.

Additional statements required by Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and Safe Work Australia: Causes serious eye damage. Wear eye protection / face protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISONS INFORMATION CENTRE/doctor.
