CROP	RATE L/Ha	RECOMENDED DILUTION	COMMENTS
Broadacre – for use in minimum tilling seeding systems	1-5 L/Ha		Ideally applied as an in-furrow band at seeding (behind knifepoint/disc). There may be added benefit from applying an additional band to the top of the furrow (behind presswheel). There is no benefit to applying Supasoak when soil profile is wet.
Turf and Horticulture	5-15 L/Ha	1 : 50	Basic application rate will depend on severity of the non wetting soil. Regular applications may be required.

DIRECTIONS FOR USE

SHAKE WELL OR INVERT SEVERAL TIMES before use as settling may occur after prolonged storage. Store in a closed, original container in cool, dry, well-ventilated area away from direct sunlight. Triple or preferably pressure rinse container before disposal through the *drummaster* program. Add rinsings to the spray tank.

MIXING

To ensure even mixing half fill the spray tank with clean water and add the required amount of product. Agitate thoroughly then add the remainder of water. Agitate thoroughly while carrying out spray operations. Reseal part-used containers immediately after use.

PRECAUTIONS

Avoid application under extremes of climate, e.g. rapid drying conditions, extremely slow drying conditions, frost, rain, or when frost or rain are anticipated. Clean all equipment before and after use. It is advisable when applying for the first time or in conjunction with other products, to spray an initial small test area for observation before general application.

STORAGE AND HANDLING

KEEP OUT OF REACH OF CHILDREN.

When handling or using this product, avoid skin and eye contact, ingestion or inhalation of spray mist. Always wear protective gloves, goggles, hat and protective clothing. Should the product be ingested or symptoms or signs develop after contact with the product, contact your doctor or the Poison Information Centre (13 11 26).

COMPATIBILITY

LOVELAND SUPASOAK is compatible with a wide range of agricultural products. If unsure of tank mixes always conduct a test and test spray a small area of the target crop. For the latest results of compatibility please contact the retailer.
