DIRECTIONS FOR USE		
SITUATION	RATE	CRITICAL COMMENTS
Minimise antagonism to tank mixes with flowable herbicides.	800 g/100 L of spray solution.	Half fill spray tank with clean water and start agitation. Add Loveland Flow AMS Herbicide Adjuvant crystals to spray tank. With agitation still running, add the required flowable herbicide to the tank and mix thoroughly. Add the required amount of Glyphosate based product and the remaining water; mix thoroughly. Add surfactant, if required, near the end of the filling process to minimise foaming. Always maintain adequate agitation during application and use the tank mix promptly.
Improve performance under adverse environmental conditions.		

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS

Loveland Flow AMS Herbicide Adjuvant should be used with non-selective herbicides only, as with some selective herbicides use may result in loss of selectivity and therefore crop damage. Ammonium Sulphate may be corrosive to metal parts of the sprayer. Thoroughly flush tanks, pumps and nozzles with water after use.

Loveland Flow AMS Herbicide Adjuvant is completely soluble. However, this product may 'cake' when the opened container is exposed to high humidity conditions.

Potential problems may include: Handling issues after the product is opened; caking during storage; and caked product leading to problems with dissolution or blockage of spray nozzles in boom sprayer/equipment. Any opened, unused product should be closed to the air to limit exposure and prevent the potential for caking. In the event that the product has caked, ensure that the product is fully dissolved before spraying to avoid the blocking of nozzles. This can be achieved by dissolving the product through the top screen of the spray tank to ensure that the product is completely dissolved before spraying commences.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or watercourses with the chemical or used containers.

STORAGE AND DISPOSAL

KEEP OUT OF REACH OF CHILDREN. Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight.

Single rinse before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on-site. Puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. DO NOT burn empty containers or product.

SAFETY DIRECTIONS

Avoid contact with eyes and skin.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26, New Zealand 0800 764 766.

SAFETY DATA SHEET

For further information, refer to the Safety Data Sheet which is available from the supplier.

CONDITIONS OF SALE: This product should only be used in accordance with the label and manufacturer's instructions. Product performance may be affected by factors which are beyond the control of Loveland Agri Products Pty Ltd and its Associates (as that term is defined in the Corporations Act 2001 Cth) (Associates). In no case shall Loveland Agri Products Pty Ltd or its Associates be liable for consequential, incidental, special or exemplary damages or losses. All sales (wholesale and retail) are governed by the General Terms and Conditions of Sale available at lovelandagriproducts.com.au or from your retailer upon request. These terms can only be varied by Loveland Agri Products Pty Ltd.

Not classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and Safe Work Australia criteria.
